

Small Animal First Aid Training (Inc. Zoonosis)

What to do and what not to do when working with injured animals

Synopsis

This course is intended to provide learners (e.g. animal management officers, local laws officers or any local government officer whose role involves interactions with animals, in particular dogs and cats with an understanding and recognition of illness or distress in dogs and cats.

Our program discusses how to move/transport injured animals safely and how to recognise illness or distress during transport. We discuss a variety of options that will assist in safely delivering a sick or injured animal to a vet surgery.

Course Topics

- Fundamentals of small animal care
- Recognise and respond to what is normal or not in injured small animals
- Working safely with animals
- Zoonosis – how to avoid contracting transferable illnesses from animals
- What to do and what not to do when working with small animals
- How to move and transport injured animals.
