

Peak Services delivers deep expertise in the local government sector. We understand the business of councils. Challenge us.

Rates and Charges EM – 1 day Workshop Only

SYNOPSIS

For many councils, rates, levies, fees and charges are their main source of revenue besides Queensland and Australian Government grant funding.

Our program covers how rates and charges are calculated; the Acts and Regulations that apply to the decision-making process; and how to evaluate and determine the range of services required by councils to help establish rates charges.

SHORT COURSE TOPICS

Revenue Sources

- Rates and charges
- *Local Government Act 2009* and *Local Government Regulation 2012)*
- Cost recovery fees
- Other revenue sources

Legislation

- Revenue policy
- Sustainable financial management
